STATE POLICE

COLONEL TADARIAL J. STURDIVANT, DIRECTOR

714 S. Harrison Road East Lansing, MI 48823

Phone: (517) 336-6157, TDD: (517) 322-1911 E-mail: MSP_Webmaster@michigan.gov

Act 53 of 1917 established the State Troops as a wartime constabulary. The State Troopers were to provide internal state security against the dangers of espionage and sabotage, labor agitation and unrest, and military draft dodging. Act 26 of 1919 created the Department of Public Safety and gave it expanded responsibilities. Act 59 of 1935 created the Department of Michigan State Police with a commissioner as its executive head. Act 380 of 1965 reorganized state government into 19 principal departments, the Department of State Police was established, and the title of commissioner was changed to director.

The director is appointed by the governor, with the advice and consent of the senate, and serves at the pleasure of the governor. The director and department are under the immediate control and direction of the governor. Its members may also be employed by the attorney general in any investigation or matter under his or her jurisdiction. The director and all sworn officers have, and exercise, the powers of a peace officer in the enforcement of criminal laws of the state, including those for the discovery and prevention of crime. Any sworn officer of the department may serve and execute all criminal and civil process when directed to do so by the governor, or the attorney general, in actions and matters in which the state is a party.

The purpose of the department is to provide 24-hour statewide quality police service for the safety and protection of the people and their property in the state of Michigan. Its primary responsibilities are to reduce the opportunities for crime, to reduce traffic accidents through diligent and fair enforcement of the laws of this state, and to act as a first responder to any citizen's needs that can be addressed through the resources of the criminal justice system.

The director is the executive head and, as such, is also the State Director of Emergency Management and State Director of Homeland Security. The director, or his designee, is a member of the Governor's Traffic Safety Advisory Commission, Michigan Commission on Law Enforcement Standards, Emergency Telephone Service Committee, Automobile Theft Prevention Authority, Criminal Justice Information Systems Policy Council, Michigan Emergency Planning and Community Right to Know Commission, and the Michigan Truck Safety Commission.

The *Executive Division* provides staff support for the director and department commanders in the areas of policy development, legislative analysis and liaison, legal and operational research, managerial productivity information, public affairs, security for the governor, and internal affairs.

The **State Services Bureau** is administered by a deputy director who supervises and coordinates five divisions and staff support for the Automobile Theft Prevention Authority. The *Emergency Management Division* works in the area of emergency preparedness for the prevention, mitigation and relief of, or recovery from, disasters that occur in the state, including homeland security responsibilities. The *Forensic Science Division* provides scientific crime detection for the department and local police agencies through seven regional crime laboratories. The *Office of Highway Safety Planning* serves as a coordinating agency for traffic safety in the state and distributes federal funds for the development, implementation, and evaluation of traffic safety projects. The *Michigan Commission on Law Enforcement Standards*, a policy-making body, develops and sets the selection,

employment, training, and revocation standards for the licensure of police officers and the certification of statewide law enforcement training delivery systems which provide police education. The Office of Behavioral Science provides individual psychological counseling, training, employee development services, and direct investigative support services.

The Field Services Bureau is responsible for investigative, patrol, and uniformed support services for the department. The bureau is administered by a deputy director who coordinates and supervises the Field Operations Division, Intelligence Section, and Regions I and II. The Field Operations Division supplies dispatch, communication network, aircraft, crime prevention, canine, underwater recovery, juvenile support, substance abuse education, and specialized services for the department. The Intelligence Section consists of the Intelligence and Violent Crime units. The Intelligence Unit is the clearinghouse for statewide intelligence, disseminates Special Intelligence Briefings on information that needs to get to the field in a timely manner, and serves as a resource to law enforcement agencies in the state for analytical information, investigative assistance, and complex case charting. The Violent Crime Unit houses the crime scene behavioral analysis team that analyzes the primary data found at the scene of a violent crime and attempts to reconstruct the behavioral events leading up to the crime. These crimes include homicides, sex crimes, threatening behavior, and questionable deaths. The unit also maintains the Violent Criminal Apprehension Program with a mission to facilitate cooperation, communication, and coordination between law enforcement agencies and provide support in their efforts to investigate, identify, track, apprehend, and prosecute violent serial offenders. The Unit is also responsible for the Sex Motivated Crime (SMC) file and the forensic artist program.

Region I encompasses 77 of Michigan's 83 counties. The region stretches across all of the Lower Peninsula, outside of the metropolitan Detroit area, and the entire Upper Peninsula. The region consists of large metropolitan areas and vast rural areas. Region I is responsible for the oversight of all Michigan State Police law enforcement activities in those 77 counties. Region resources are comprised of six uniformed services districts, the Region I Special Investigation Division, and the Motor Carrier Division. The region provides a wide variety of services from general police services offered by uniformed troopers, to specialized investigative units, to commercial motor vehicle regulation and enforcement through the Motor Carrier Division. The Motor Carrier Division ensures compliance of laws governing the size, weight, safety, and ownership of commercial vehicles, economic regulations, and criminal laws associated with commercial vehicles and their operations. This division has responsibility for scale house, road patrol, investigative support, hazardous materials transportation and inspection, and school bus inspection activities.

Region II serves the metropolitan Detroit area consisting of Lenawee, Macomb, Monroe, Oakland, Wayne, and Washtenaw counties with some services crossing over into Hillsdale, Livingston, and Jackson counties. The region provides uniform patrol, regional dispatch, and specialized investigative services for Southeast Michigan through the Second District uniformed headquarters and the Region II Special Investigation Division. In addition to road patrol and regional dispatch, specialized investigative services are provided in the areas of organized crime, white collar crimes, tax fraud, auto theft, fugitive apprehension, narcotics trafficking and interdiction, computer crimes, identity fraud, casino gaming, surveillance, violent crimes, cold case homicides, anti-terrorism, video enhancement, and electronic technical services. Seven multijurisdictional drug task forces, composed of state, local, county, and federal agencies are supervised by the Region II Special Investigation Division.

The *Administrative Services Bureau* is responsible for all of the divisions that provide support services for the department and law enforcement agencies statewide. It is administered by a deputy director who coordinates and supervises the bureau. It consists of the Budget and Financial Services Division, Criminal Justice Information Center, Criminal Justice Information Systems Policy Council, Management Services Division, Human Resources Division, Training Division, and 911 Administrative Section. The Budget and Financial Services Division is responsible for the overall development and management of the department's budget and financial services. The Criminal Justice Information Center maintains and supervises all criminal and non-criminal records, freedom of information requests, firearm and licensing information, uniform crime reporting, and the Law Enforcement Information Network, and the Automated Fingerprint Identification System. The Management Services Division provides management of the department's operations, such as quartermaster, tailoring, and inventory warehouse, as well as the responsibility for maintaining and improving department facilities. The Human Resources Division provides supervisory control of personnel activities relating to recruiting, selection, classification, employee benefits, and labor relations. The Training Division provides recruit in-service, managerial, and career development training, and houses a criminal justice library.

Agencies of the Department of State Police include the Automobile Theft Prevention Authority Board of Directors, Criminal Justice Information Systems Policy Council, Emergency Planning and Community Right to Know Commission, Michigan Justice Training Commission, Michigan Commission on Law Enforcement Standards, Michigan Truck Safety Commission, and the Governor's Traffic Safety Advisory Commission.

AUTOMOBILE THEFT PREVENTION AUTHORITY BOARD OF DIRECTORS

COL. TADARIAL J. STURDIVANT (Chair)		
Automobile Insurers		
THOMAS E. PACKLA. July 1, 2006 State Farm Insurance Companies, Troy STEVEN WAGNER. July 1, 2006 Auto Club Insurance Association, Dearborn		
Law Enforcement		
MICHAEL G. McCabe		
Purchasers of Automobile Insurance		
Valerie Knol, Farmington		

Act 174 of 1992 reestablished the **Automobile Theft Prevention Authority** as a separate body within the Department of State Police. Six of the seven members comprising the board of directors are appointed by the governor, with the advice and consent of the senate, to serve four-year terms. Upon expiration of a term, a member may continue to serve until a successor is appointed. The seventh member is the director of the Department of State Police.

The purpose of the authority is to provide a plan of operation to combat automobile theft within the state, including an assessment of the scope of the problem, an analysis of the methods to combat it, and means to provide financial support to fight automobile theft.

The Law Enforcement Information Network (LEIN) Policy Council was established pursuant to Act 163 of 1974 to create policy and promulgate rules regarding the operational procedures to be followed by agencies using the law enforcement information network, to review applications for network terminals and approve or disapprove the applications and the sites for terminal installations, and to establish minimum standards for terminal sites and installations. The Automated Fingerprint Identification System (AFIS) Policy Council was established pursuant to Act 307 of 1988 to, among other things, create policy and promulgate rules regarding the operation and audit procedures to be followed by agencies using the AFIS, to design and provide for statewide identification of individuals using AFIS, to establish minimum standards for AFIS sites and installation, to revive proposed applications for the AFIS, and approve or disapprove the applications and the sites for system installations, and to establish policy and promulgate rules restricting the dissemination of identification information to individuals and agencies.

The LEIN Policy Council and the AFIS Policy Council were abolished by E.R.O. No. 1998-1 (MCL 28.161), effective April 13, 1998, and the powers and duties of both policy councils were transferred to the **Criminal Justice Information Systems (CJIS) Policy Council** created within the Department of State Police by E.R.O. No. 1998-1. In addition to the responsibilities transferred to it by the executive reorganization order, the CJIS Policy Council serves in an advisory capacity to the Director of the Department of State Police on issues related to the development and deployment of information management systems that facilitate the rapid exchange of accurate information between the various components of the criminal justice community.

Created in the Department of State Police by Executive Order No. 2001-5 (E.R.O. No. 2001-2, MCL 28.601), the Michigan Commission on Law Enforcement Standards (MCOLES) consolidates all the statutory authority, powers, duties, functions, and responsibilities of the former Michigan Justice Training Commission, the Michigan Justice Training Fund, the former Commission on Law Enforcement Standards, and the Law Enforcement Training Fund. The Michigan Commission on Law Enforcement Standards consists of 15 members charged, in addition to statutory duties and responsibilities, with focusing their activities on increasing professionalism and on instituting in-service standards and training for Michigan law enforcement officers, on operating a web-based information system to support the accomplishment of the commission's goals and communicate more efficiently with law enforcement organizations throughout the state, and on ensuring that grants awarded by the Commission advance these objectives.
